

Hi Families!

I'm excited to tell you that our class will be using an app called Bloomz to simplify how I communicate with you regarding your child's days at school.

*Get ready to experience:*

- Updates on what your child is doing and learning
- Photos from specific activities with a 1-click download option on your desktop
- Access to our class calendar and Invitation requests to special events
- Volunteer requests and ability to sign up right in the app
- And more...!

Imagine having access to all teacher communication in one spot -- your mobile device and/or computer! You'll be notified when I add events, photos, and other things to our Bloomz classroom page. Notification preferences are decided by you! Choose email notification, app, or text! Of course you can also visit our Bloomz class via computer too!

If you would like to connect on Bloomz send me an email with the subject heading "Let's Connect" and I will send you a link to make it happen!

**Amy Snider**

For more information, please refer to the Getting Started guide on our classroom website.
